# Town Warrant

---

## STATE OF NEW HAMPSHIRE

*To the Inhabitants of the Town of Peterborough in the  
County of Hillsborough in said State, qualified to vote  
in Town Affairs:*

You are hereby notified to meet at the Town House in said Town on Tuesday, the eleventh day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To choose two Delegates to a convention to revise the Constitution of the State to be held in Concord, N. H., June 4, 1930.
3. To raise such sums of money as may be necessary for the maintenance of the poor, for the laying out and repairing of highways, and all other charges arising within the Town and appropriate the same.
4. To raise and appropriate such sums of money as may be necessary for the support of the Fire Department, the Public Library, and for Memorial Day.
5. To see what sum of money the Town will vote to raise and appropriate towards paying the Town debt and interest.
6. To hear the reports of agents, auditors, committees, or officers heretofore chosen, and to pass any vote relating thereto.
7. To see if the Town will vote to instruct the Selectmen to appoint a police officer, or as many as may be necessary, to preserve order in and about the public places of the town, and to perform other duties as may be required by the Selectmen both day and night, and raise and appropriate money for the same.
8. To see if the Town will vote to accept legacies and gifts given to the Town in trust by any individual or individuals.

9. To see what sum of money, if any, the Town will vote to raise and appropriate to defray the expenses of Old Home Week.

10. To see what sum of money the Town will vote to raise and appropriate toward the construction of a gravel road on any portion of the Greenfield Road, or take any other action relating thereto.

11. To see what sum of money the Town will vote to raise and appropriate toward the repair of Sand Hill Road, beginning at a point where work of last year ended, and continuing Easterly as far as appropriation will permit.

12. To see if the Town will vote to raise and appropriate money for the payment of the Pine and Granite Street wall construction authorized at the Special Town meeting of July 24th, 1929.

13. To see if the Town will vote to construct a cement sidewalk on the West side of Pine and Granite Streets from a point near the Spaulding property on Pine Street to a point near the Edwards property on Granite Street, and raise and appropriate money for the same.

14. To see if the Town will vote to investigate an additional source of water supply, and raise and appropriate money for same, or take any other action relating thereto.

15. To see if the Town will vote to replace the wooden water pipe line to West Peterborough with iron pipe, and to raise and appropriate money for the same by issuing Town Bonds.

16. To see if the Town will vote to extend the Town Water at South Peterborough from a point opposite Noone's Station, running Easterly to a point opposite the Fitzgerald House, and raise and appropriate money for the same.

17. To see if the Town will vote to extend the Town Water from the North end of High Street to MacDowell Colony House on Tenney Road, and raise and appropriate money for the same by issuing Town Bonds.

18. To see what action the Town will take in relation to the bequest of the late Adelbert Nichols of Claremont, N. H.

19. To see what action, if any, the Town will take in relation to the so called William R. Noone Legacy, and raise and appropriate money for the same.

20. To see if the Town will vote to relay the lawn and repair the walk at the American Legion Hall, and raise and appropriate money for the same.

21. To see if the Town will vote to purchase a Triple Combination Motor Fire Pump for the Fire Department, and raise and appropriate money for the same, or take any other action relating thereto.

22. To see if the Town will vote to place one Street Light on Pine Street to be located by the Selectmen.

23. To see if the Town will vote to extend the sidewalk on High Street to the junction of the two roads at the North end of the Street, and raise and appropriate money for the same.

24. To see if the Town will vote to construct a cement sidewalk on the West side of Grove Street from a point opposite the Munkittrick Residence toward Laurel Street, and raise and appropriate money for the same.

25. To see if the Town will vote to place two street lights at the lower end of Summer Street, to be located by the Selectmen.

26. To see if the Town will vote to provide a suitable coasting place and raise and appropriate money for the same.

27. To transact any other business that may legally come before said Meeting.

Given under our hands and seal this Twenty-second day of February, in the year of our Lord Nineteen Hundred and Thirty.

MARTIN J. KEENAN  
FRED J. AMES  
ARTHUR P. SMITH  
Selectmen of Peterborough

### *Chief Engineer's Report*

TO THE SELECTMEN OF PETERBOROUGH, N. H.

Gentlemen:

As Chief of the Fire Department I wish to submit the following report for the year 1929.

We have got to be on the job all the time and watch out for the fire hazard which is forever with us and on the increase.

The changed conditions of our rural districts are adding to the fire menace all the time, where buildings are not occupied and left without a caretaker, it is a good investment to securely lock them or nail them up so as to keep out petting parties of different kinds. The two fires in the late fall in the outlying parts of the town, the A. O. Smith place, so-called on Windy Row, and one of the places on the Pushee estate in the East part of town, the outbuildings were not locked up and were easy to get into.

I would call the attention of property and business places generally to the habit of letting litter and rubbish collect in and around their places of business and buildings. Make a trip to the Public Dump. It may save you and your neighbor a lot of trouble. The recent fires in some of our larger centers, the cause was traced to the accumulated amount of rubbish and packing cases.

The months of January and February are the worst months of the year for building fires; so when we have a cold snap and you put on extra fuel think of the condition of your heater and chimney.

If you have electric machines of different types, don't go out to the neighbors to make a call and leave the juice on; turn it off, then go. I would again ask the citizens to please observe the rule of the road that gives the Fire apparatus the right of way when the alarm rings in.

During the year we have installed at the Fire Station what is known as a floating battery system in place of the wet battery type which makes the gong more reliable. I would say here for the benefit of our critics that please give the gong credit for the many times that it blows right instead of the few times that it does not blow, for it is a machine and is liable to get out of order.

The equipment of the department is practically the same as last year with the addition of 300 ft. of 1½ inch hose and two dozen pails.

The past year the department responded to 49 calls for help or alarms, 22 gong alarms, 27 still or telephone calls.

As Forest Fire Warden, I issued 79 written or oral permits to burn brush or rubbish, and would say, for your convenience you can burn brush or rubbish on the snow or plowed ground without a permit if it is away from grass or wood land.

And last but not least, I wish to thank the girls at the Telephone exchange for ringing the alarm for us.

Respectfully submitted,

TIMOTHY E. DRISCOLL

Chief

*Report of Chief of Police*

TO THE SELECTMEN OF PETERBOROUGH, N. H.

**REPORT OF THE SUPERINTENDENT OF SCHOOLS**

TO THE SCHOOL BOARD OF PETERBOROUGH:

The following table illustrates concisely what is occurring at present in Peterborough:

	AVERAGE MEMBERSHIP				
	1921	1922	1923	1924	1925
Elem.	365	360	350	378	397
High	55	61	75	70	83
Ratio	1:6.6	1:6.0	1:4.6	1:5.5	1:4.8
	100	110	144	123	139
	1926	1927	1928	1929	1930
Elem.	402	398	377	402	400
High	85	93	115	131	149
Ratio	1:4.7	1:4.3	1:3.3	1:3	1:2.7
Index	139	155	202	222	226

A. Average Membership has increased from 420 to 533 in 9 years.

B. The High School has increased from 55 to 131 in 1929 and to 149 in 1930.

C. The increase of 103 in the total enrolment is accounted for by only 37 increase in grades 1-8; while the remaining 67 of the 103 is larger than the total High School enrolment in the year closing in June, 1921.

D. The High School has grown since 1927, one-third larger, and the enrolment for the year 1930-31 is 154, an increase of 23 beyond the average membership figure of 1929. This increase in enrolment for the present year is one-third of the total average membership of the High School only nine years ago.

This growth has not been predictable within desired limits. Formerly prophesiable losses due to reaching the age of 16 years have not occurred. The advertising value of a good school has retained many, and brought in tuition pupils, whose presence has not increased the teacher requirement, but has added to the gross cost of education, while actually locally reducing the net expenditure.

As long as continued growth occurs, the schools will cost more. Decrease the number of children and the size of the town, and the schools will cost less.

With consolidation came the impossibility of transfer of sets of books, staggering of reading. Exchanges are now possible only between Central and West Schools. This load has only this year been absorbed.

Within the High School, divisions of classes have formerly made possible interchange of basal texts. Discontinuance of this policy has doubled or trebled the cost of books for the present year. Changes in the reading list required for college entrance have forced expenditures, and if the high school is still to offer college preparation, a still greater expenditure will be necessary in English alone for the ensuing year.

The average cost of High School Instruction for New Hampshire is \$106.98. The cost for instruction in Peterborough High School is \$100.28. This figure includes teachers' salaries, text books, scholars' supplies, flags and appurtenances and other expenses of instruction. On the basis of a 150 pupil high school Peterborough is maintaining high school instruction for \$1,005.00 less than State average. The above figure of \$100.28 includes the prorated cost for music and physical education. This cost of \$100.28 per pupil is more than the cost per pupil in 31 towns in the State and it is less than the cost per pupil in 53 other towns in the State.

A median figure of \$107.78 per pupil more accurately represents the state per pupil cost.

The high school holding the median position in point of average membership in New Hampshire is Winchester, with a membership of 62. Within the group of six schools, with enrolments from 121 to 135, Peterborough is third in per pupil cost at \$100.28 per pupil; while the cost in a town which emphasizes college preparatory courses the cost is \$141.93 per pupil with an enrolment of only 4 more pupils than Peterborough.

Since 1927 there has been an increase in the school membership of 40% but the instructional costs have increased only 31%.

Since 1928 the school membership increased 14% or about  $1/7$ , while the instructional costs increased not quite  $3/10$  of 1%. This increase was actually \$37.65 and with it 16 more children had to be provided with books, supplies, and all other equipment, including typewriters in the Commercial Course.

## SUMMARY

The present costs of instruction have become stabilized at probably what is too low a figure if the experience of high schools of the same size is of any value.

The trend of the indices shown on Page 12 of The Complete Survey made in 1927, table B, is not appreciably changed.

## ELEMENTARY SCHOOL COSTS

The per pupil cost in public elementary schools of Peterborough is \$62.52 including the cost of administration, all fixed charges and the per capita tax. The median figure for the State is \$83.35 per pupil. This is \$20.83 less than the median figure. This is a total saving to the Town of \$8,332.00, spread over 400 children.

There are 244 school districts in New Hampshire. Since 1923 Peterborough's positions in point of total current cost of public education per \$1,000.00 of equalized valuation are represented by 130, 157, 82, 95, 97, 112, 108. This series shows that not since 1923 and 1924 has Peterborough held a position more than 28/61 or 46% up the list of school districts in point of expenditure compared with the wealth behind each child.

From 1920 through 1925 an average of 6 days was lost from each 180 day school year, costing the town in excess of \$1,200.00 each year. In addition to this financial burden the children who comprised the 8th grade in the year 1927 had lost 43 days of education. For the four years since 1925 the number of days lost has not averaged more than 1 6/10 and for the past two years no days have been lost from a full 180 day year. It cost the town \$9,002.57 for the days lost during the schooling of the group which was the 8th grade in 1927 and the per diem cost for closing varied from \$121.70 to \$281.08.

## ENROLMENTS

The present enrolments by grades are: Grade 1-39, 2-51, 3-52, 4-51, 5-47, 6-54, 7-54, 8-52, 9-48, 10-34, 11-37, 12-35. Total grade enrolment, Grades 1-8, is 400 which is a gain of 35 in the town since 1921 and only 2 less than the high figures of 1926 and 1929. The total enrolment in the four-year high school will exceed 154 by June 1930.

Barring death or great decreases in total population of the town in three years there will be in excess of 210 pupils

in the four-year high school alone and there will be not less than 308 pupils within the new high school building. The above figures are taken without consideration of anything save millenium expectations.

The school population over a ten year period has increased from 420 to 554; an increase of 32%.

#### PER DIEM COSTS

To such persons as still think of Peterborough in terms of a town educating 420 pupils instead of 533, the following table is of interest:

#### PER DIEM COSTS PER PUPIL 1929-1930

FOR:

Teaching	\$ .24
Books	.015
Supplies	.019
Diagnosis and Remedial	.013
Janitor service	.028
Fuel	.024
Water, light, janitors' supplies	.019
Minor repairs	.011
Health supervision	.009
School supervision	.020
Bonds and interest	.09
Fixed charges	.004
Special activities	.003
Administration expenses	.009
New equipment	.002

These figures become more evident as unusual examples of economy when it is noticed that \$2.70 buys new and replaces old text books for each child for one whole year; that \$3.42 supplies a child with pencils, paper, maps, outlines, crayons, paints, typewriter use, and laboratory material for one year. It costs \$9.36 per year to keep him warm in a well janitored building. And it costs him \$16.20 per year to pay for the new building to which he now goes or will later go. His water, light, lavatory and toilet necessities, and the supplies such as mops, brushes, floor oil, and furnace and lawn tools, cost him \$3.42 per year.

For new equipment such as sewing machines, new typewriters, laboratory equipment, wall maps, globes, new desks, he pays \$.45 per year.

And if his parents choose to live at a remote part of the town, making valuable some distant farm or home, he is transported to and from the school at a cost of 13 cents and a half per trip.

It should constantly be borne in mind that the per pupil cost for principals' and teachers' salaries remains continually below the State average. During the last year through the State of New Hampshire, which rates low in salaries paid to teachers, the school districts averaged to pay for principals' and teachers' salaries, per child, \$55.43. Peterborough paid \$43.35 per child, less than this State average.

PRINCIPALS' AND TEACHERS' SALARIES PER PUPIL COST:

State average	\$55.43
Peterborough	43.35

---

\$12.08

Peterborough expended, per child, \$12.08 less than State average. It educated 533 children. Therefore it expended on its children  $533 \times \$12.08$  or \$6,337.37 less than average cost for the same number of pupils.

To have expected average education of 533 children at a figure of \$6,337.37 less than average cost would have been a forlorn hope except for the saving factor of a complete diagnostic and remedial program, continually checking for minimum permissible requirements.

To be entirely frank, had it not been for the best modern guidance afforded to supervision and applied wherever opportunity was allowed, the best possible return for an expenditure of only 78% of average would have fallen short of average educational achievement by 22%.

A bargain at 22% less than an average cost requires optimistic belief. Sooner or later Peterborough will believe that there is no investment comparable to paying an average price for instruction. Six thousand three hundred and thirty-seven dollars "saved" on teachers, is not economy. By the same logic, nothing guaranteed the children of Peterborough an average education except the testing program, and this was maintained at an absurdly low figure by printing for our schools, within the Commercial Department and the Superintendent's office, the thousands of checking sheets used for proof of advance or evidence of further need for drill and teaching.

The standing of the schools was maintained by a triumph, not so much of brain over matter, as of mechanical devices

reproducing as nearly as possible what an adequate teaching force would have supplied.

\$6,337.37 is too much to "save" on teachers' salaries. Or, if this amount is to be "saved" each year on that item, the freest possible hand should be given supervision and administration to provide every type of guidance which has been found remotely to approach the value of a teacher.

All studies of successful education point conclusively to the need for classes not too large, for divisions in accordance with abilities, or for sufficient teachers to care for various plans of contract or Daltonized work. Over and above all plans, modern education demands a definite outline and a continued checking for progress, by means of achievement testing, diagnosis and remedial treatment. Education is no longer a matter of opinion. Education has no modern advance save through, and in accord with, standardized, objective measurements.

Peterborough needs more teachers. Its present teaching staff presents a picture of loyal service, seriously overloaded, that is difficult to equal and, in our opinion, impossible to exceed, taking into account the experience of the members of the staff. The policy of dividing the classes in the High School went into the discard this year. The good and the poor students are together. The poor student, desperately in need of greater amounts of teacher time, finds the teacher without time to spare. Transportation removes the possibility of after session classes, except in emergencies.

According to the records, there were five teachers in the High School when it had 55 members, and only six when it had 131 members! And in this present year, with an enrolment of 154, there are still but six; junior high school teachers caring for four periods per day in addition to the regular staff. On a basis this would be the equivalent of six teachers and one-half.

Peterborough needs more teachers. But it particularly needs to retain its best teachers. Supervision believes that a considerable portion of this \$6,337.00 should be expended to retain Peterborough trained teachers. They are in demand, as soon as they have learned diagnosis and remedial methods, standard test interpretation, and Simon-Binet work, at salaries from \$200 to \$400 more. These trained teachers would be more valuable in Peterborough at the same salary paid them elsewhere, because they know their pupils.

## ACHIEVEMENT

At present there can be but little argument on this. The policy of standardized testing for achievement added to the observation of experienced teachers, removes any fair chances for discussions.

No boasts are made. With \$6,337.37 less than average to expend for teachers, better than average results are secured. There is no further story or comment to be made. The tribute for this achievement is placed squarely on every loyal teacher, and these would of their own intelligence, at once give credit to continual checking on standard outlines.

(Signed)

LAWTON CHASE

Superintendent of Schools

February 7, 1930

---

**REPORT OF SCHOOL BOARD**

The three years of consolidation of the schools of Peterborough point definitely in the right direction, so far as the value to the individual child is concerned. This, for the most part, is the first obligation of education. There are difficulties in minor phases due to consolidation, but they are of infinitely less value than the advantages.

The educational plane of Peterborough is gradually advancing. It is not possible to point to some one outstanding accomplishment for the year, but this year, like those in the past, has taken its place in the program of improvement. Modern methods accept certain procedure in remedial work, i.e., the work with the backward scholar, who for any of many reasons, may not be absorbing the required amount of learning. When remedial work is carried out according to modern methods, it requires more teaching hours available than when a pupil either is promoted or is left in the same grade until he masters it. It is true, however, that even though the modern method of remedial work requires additional available teaching hours, it is economy to the town, the parent and the child. Peterborough could use more teacher hours to advantage in remedial work. The happy medium between the ideal and bare necessity has been the policy.

The buildings are in good condition. The High School is adequate for the present. However, the increase in tuition

pupils and added classes promise to demand that one of the administration rooms be equipped for class room work. The stage is seriously in need of equipment and the present budget asks \$800 for that purpose.

The Center building has been repaired according to the voted appropriation. Shingles, painting and cement work have been completed. \$2955 was voted for such work. There remains of this fund \$402.50 which will be used to replace the present dilapidated fence. There is need for grading as well as other work on the grounds, but for the coming year, the usual up-keep is all that will be necessary.

The West school building has had the usual up-keep. The bank wall in the rear of the building was relaid after the spring freshets. This building needs better heating and lighting facilities.

The South school has not been sold, due to the inability of the Board to make, as yet, the necessary title arrangement. It is planned, however, to carry out the wish of the town at the first opportunity.

The sale of the Wilson Corner property was reported last year. The funds are being used as directed by vote, but as yet have not been expended. The amount of \$2,723.13 reported last year has accumulated to \$2,907.41.

The Portable building was sold this year for \$650. This item of revenue was not in the 1929-30 budgeted income. It has been used as part of the settlement fund on the Phoenix Property, which is now under the management of a Board of Trustees as authorized by the Peterborough Historical Society. This property earned for the district from May 1, 1923 to March 1, 1929, \$1,527.71. The expenses were \$721.91. The balance of \$805.80 was settled for \$800, paid to the Treasurer of the Peterborough Historical Society. There were, as usual, more funds expended by the close of the school year than had been estimated and the Board deemed it wise to carry out the vote of the district by using the \$650 obtained for the portable building as a part of the settlement on this property.

The needs of Peterborough schools at present are many. The town has been liberal when it has deemed wise the budgets proposed. The Board finds difficulty at times in building the school system as rapidly as it would like with the available budget. There are needs, however, far surpassing those financial. Closer supervision by working contact with every teacher is needed. This can never be adequately supplied under the present union plan.

The present teaching staff is one which is a credit to the town. All teachers are trained and experienced in their work. This means that if we hope to maintain a staff of such quality, more funds must be made available for teachers' salaries. Two full-time teachers were added for the present year. We are obliged to add two more this year. The dominant factor is, of course, added enrolment. Due to these facts, the budget calls for a substantial increase in the item of teachers' salaries.

Manual arts in our High School is and has been far below standard. There is need for a professional instructor, provided that the department is retained. Those having charge of this work have done unusually well, as they have been called upon to supplement only casual training with very limited experience.

The Board has had the pleasant experience of having, at a time of dire need, the valuable services of F. C. Mercer and James B. Sweeney for boys' athletics. They have, at great personal inconvenience and no small expense to themselves, given the town, without cost, most satisfactory coaching. These citizens merit the commendation of the Board and the town for what they have done. Peterborough is a basketball, baseball and fall track community. The town cannot expect, year after year, such work as these two men have given the schools. It is proposed to add a teacher who will also do coaching among the boys. Miss Benfield has demonstrated the value of such a member of the staff by the creditable work she has done with the girls.

The Board acknowledges that there is some adverse criticism of the schools and recognizes that some portion of it has merit. It does appreciate citizen counsel for guidance. The aim is to meet these faults as rapidly as possible. It is true that the more rapid the progress in some lines of education, the more evident are the faults of those lines not as yet brought to the level of the average. Modern supervisory methods may become burdensome because of the utilization of too much time, the energy of the pupils and funds for mechanical educational devices. There is also some tendency toward waste of time in extra curricular activities of doubtful value.

The transportation problem continues to be prominent, the expense of which is beyond the control of anyone. It can be said, however, that Peterborough has had excellent service and efficient management of all transportation.

Health in the schools has been normal. The West school had, for a time, a number of children considerably undernourished, but the White Mills Company of West Peterborough has, for some time, been supplying milk in this school for the children of employees.

This report must, of necessity, be a summary. Detail problems are always present. They must be solved before some of those of major importance can be considered. The Board urges the citizens to read the supplementary reports of the Superintendent, the Head Master, and the Treasurer.

W. H. MOORE

JENNIE H. FIELD

School Board of Peterborough

## REPORT OF THE HEADMASTER

February 7, 1930

I submit the following report for the first half of the school year 1929-1930:

### INSTRUCTION

The stress has been placed on supervision of instruction. It is a concomitant aim of all instruction to recognize the individual pupil differences as ascertained from various intelligence and accomplishment tests of standardized type. Remedial work, in and out of the class room, has consumed a good portion of the available time. The following table shows the teaching load for this year:

Teacher	available periods per week	teaching periods per week
Miss Bridey	35	35
Miss Josie	35	34
Miss Schaedel	35	40
Miss Williams	35	35
Miss Witherell	35	29 plus 8-30 min. for Jr. High Dom. Arts
Mr. Whitney	35	10
Junior High Teachers		
Miss Bresnahan	35	32
Miss Hancock	35	33
Mr. Tobey	35	30 plus 8-30 min. for Jr. High Man. Arts

Because of the large number of Freshmen who elected Commercial Course, and because of the number of type-

writers being less than the number electing the work, it was necessary to make an additional division of Freshmen typing which meets daily during forty minutes of the activities' periods. This is undesirable because it eliminates these Freshmen from the activities. In addition to the above load for the high school teachers the three Junior High teachers are teaching four periods per day of the high school work. In 1921 the high school with an enrolment of 55 pupils had five teachers; in 1929 in the high school with an enrolment of 154 there is the equivalent of but  $6\frac{1}{2}$  teachers. It is thus evident that the teaching loads are excessive. Bancroft Beatley, Professor of Education at the Harvard Graduate School of Education, in his "Suggested Time Table Schedule of Classes" states that five 45-minute periods per day is the maximum load which a teacher may be expected to carry successfully.

At the mid-year point check sheets of the Waples type were used and data from these will serve as a basis for remedial work for both office and teachers during the second half of the year.

Supervision has emphasized the need for motivation through interest and by variations in procedure within the class room. Testing has been on the basis of frequent summary-type tests, utilizing the proved methods of testing such as: Essay-type, true-false type, completion type, multiple choice type, and the selection-best-answer type.

I submit the following statistics relative to the load of two departments—the English and the Commercial—for next year:

The entering class will in all probability be about 58. This number is far too large for one division of English. It would appear that the following divisions will be necessary:

English I            2 divisions

English II        2 divisions (Continuing the policy of this year—divisions made because of size of class and according to mental abilities to secure more homogeneous groups.)

English III       1 division

English IV       2 divisions (Not advisable to require all seniors to complete college requirements; differentiation essential, I believe, for best interests of pupils).

The English teacher this year has taught U. S. Constitutional History which is a Senior subject and which another year should be divisioned according to whether a pupil is planning to enter college or not; therefore two divisions seem desirable and essential for pupils. Thus the teacher handling this work this year would not be able to handle the same work another year as there would be nine periods of work with only a seven period day of available time. I would further recommend that the English teacher's load be considerably lighter that there may be available more time for remedial work during school hours.

If the same proportion of entering freshmen elects the Commercial Course as did this year we shall have 35 or 36 pupils electing this course. This will necessitate two divisions of freshmen typewriting; as we have two divisions of the first year type this year there will be necessary two divisions of sophomore typewriting another year. The Commercial load may be summarized in the following table for next year's classes:

Year	Subject		Periods per week	Total periods nec.
I	Typewriting	2 div.	5	10
	Bookkeeping	2 div.	3	6
II	Typewriting	2 div.	5	10
	Bookkeeping	1 div.	3	3
	Stenography	1 div.	2	2
III	Typewriting	1 div.	5	5
	Stenography	1 div.	5	5
IV	Office Practice			
	(Stenog. & Type.)			
	1 div.		7	7
				<hr/>
				48

In a seven period day with five-day week, available 35 per.  
Excess which will necessitate addition to teaching force 13

From the above table it is evident that it will be impossible for one teacher to handle the Commercial Work for next year.

#### SUMMARY

More teacher time made available for pupil assistance by the appointment of additional staff members.

Further motivation of the various subjects through the use of the activities periods with club work as a basis for

pupil interest; such clubs would include dramatics, debating, and the like for Motivation in English; French Club, Latin or Classical Club, for the foreign language classes; Domestic Arts Clubs; Manual Arts Clubs for boys, Audubon Club for Nature and Science study; Reading Clubs for the Junior High Classes as motivating devices; Science Club for Chemistry and General Science classes; and clubs of similar nature. These clubs should function during school time.

A program of pupil guidance should be maintained, and more teacher time is necessary to conduct this program. Such a program includes careful diagnosis of individual differences, the proper remedial care for deficiencies in study, and a greater adjustment of courses to those pupil individual differences more adequately to fit the pupil for his proper position, economically and socially, in a world of competitive specialization. We do not wish to return to the day when one prescribed course was the panacea for the educational ambitions of all types of children. We must expect to continually reorganize until we are serving more and more pupils in such a way as to make them more capable of adjustments in life.

Respectfully submitted,  
RALPH K. WHITNEY  
Principal

PETERBOROUGH SCHOOL DISTRICT  
FINANCIAL REPORT  
JULY 1, 1928 TO JUNE 30, 1929  
SCHOOL DISTRICT OF THE TOWN OF  
PETERBOROUGH, N. H.  
FINANCIAL REPORT, July 1, 1928 TO JUNE 30, 1929

RECEIPTS

Balance on hand, July 1, 1928		\$15 66
Income from local taxation:		
Support of schools	\$44,954 00

July 11, 1929

We have examined the account of the treasurer of the School District of Peterborough, N. H., for the year ending June 30, 1929. We have traced all recorded receipts into the bank and find all disbursements properly vouched and correctly recorded. The bank balance, as shown by the treasurer, was reconciled with the bank's statement dated June 30, 1929.

C. M. CUMMINGS  
 THOMAS S. NICHOLS  
 Auditors

SCHOOL DISTRICT OF THE TOWN OF

## School Warrant

---

*To the Inhabitants of the Town of Peterborough,  
Qualified to Vote in District Affairs:*

---

You are hereby notified to meet at the Town House in said District on Wednesday, the 5th day of March next, at 7:30 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose two Auditors for the ensuing year.
5. To choose a member of the School Board for the ensuing three years.
6. To hear the reports of agents, auditors, committees, or officers heretofore chosen.
7. To raise and appropriate such sums of money as may be necessary for school purposes to complete the school year 1929-1930.
8. To raise and appropriate such sums of money as may be necessary for school purposes for the school year 1930-1931.
9. To choose agents and committees in relation to any subject embraced in this warrant.

Given under our hands this eighteenth day of February,  
A. D. 1930.

KARL B. MUSSER  
JENNIE H. FIELD  
W. HERBERT MOORE  
School Board of Peterborough

**PETERBOROUGH HYMN****A. D. 1620**

God our Father!  
Glory, Lord, to Thee!  
Before whose voice  
Is mute the thund'ring sea!  
Through wind and foam  
Thou lead'st us home—  
To Thee be glory through eternity.

Lord, hunger and cold are nigh!  
Lord, not for ourselves we cry—  
Let not our children die!  
Silence your loud alarms  
God is our shield from harms—  
He will make strong our arms.  
Christ, who hath calmed the wave,  
Christ will uphold the brave.

Christ, our Saviour!  
Father of our Faith!  
To Thee we bring faint hearts and failing breath,  
Be Thou our Guide!  
With Thee we bide,  
To love, to labor, and to hope till death!

EDWARD MACDOWELL
